

COMPORT

TIME TO MOVE AHEAD

Almost five years ago we had a dream for integrated professional PR solutions in Albania. We succeeded to share it. Now, it's time for COMPORT to take the next step. It's time to move ahead. For we still have a dream, to share.

In 2005 we grounded and supported the Albanian Institute of Public Relations, making of it one of the most active think-tanks in the country. Several projects and strategies designed by AIPR have been endorsed now from state institutions and donor organizations.

COMPORT is the first ever Albanian PR firm supporting Grassroots Communication and activities. Be it for a crisis management, research process or awareness building, COMPORT can immediately launch a workforce of over 400 students from the Sociology Faculty of Tirana, all trained and led by their University professors.

If you search on Google "Albania Marketing", COMPORT comes first, because of our SEO services. We don't need to tell anyone how good we are. We just are. And our clients know it.

In order to better provide comprehensive and integrated solutions to nowadays

demands, COMPORT acquired a full-service multimedia agency that creates advertising, design, interactive, and productions. GraficaPlus – now a COMPORT owned company- is led by a veteran of the Albanian design – Mr. Arben Bejko – the National Opera Scenographer over a dozen years. From TV studios to National Squares, from small collaterals to large format, from 3D animation to live road shows, Arben Bejko has delivered always the result. For we at COMPORT, we measure actions by results, not just by efforts.

Last but not least, COMPORT registered on August its new branch in Kosovo offering the same range of services and quality to clients, that wisely consider the Balkans as one integrated market.

This new dimension is the heart of our human growth in resources. COMPORT staff is made of independent & creative thinkers acting as a team.

For that reason we advise now clients who are developing project worth up to \$6 Bln in a wide range of sectors from Energy to Mining, Health Care and Pharmaceuticals, Banking and Finance, Tourism and Real Estate, etc.
